

MEMORY

ProSignia 200
Pentium II Models

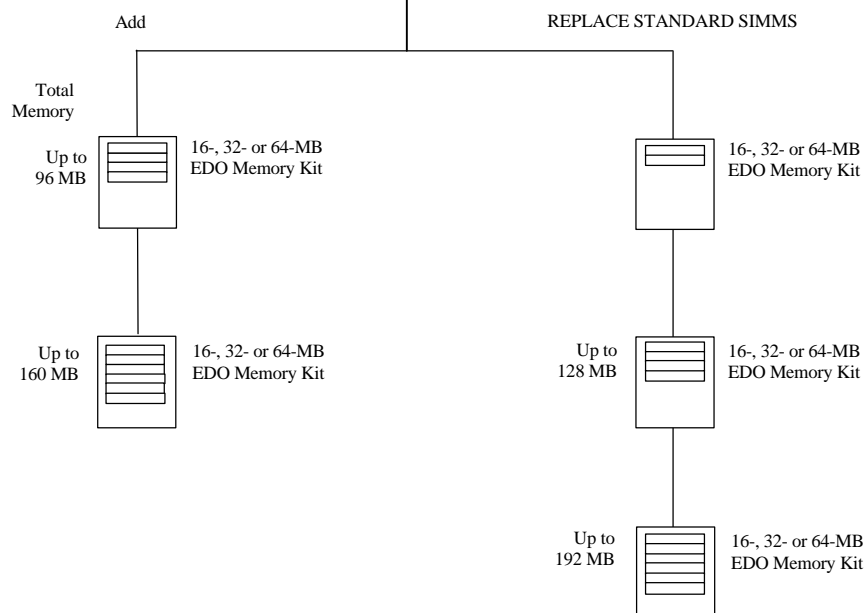

Compaq ProSignia 200 6/233

EDO UPGRADE

STANDARD MEMORY

OPTIONAL MEMORY

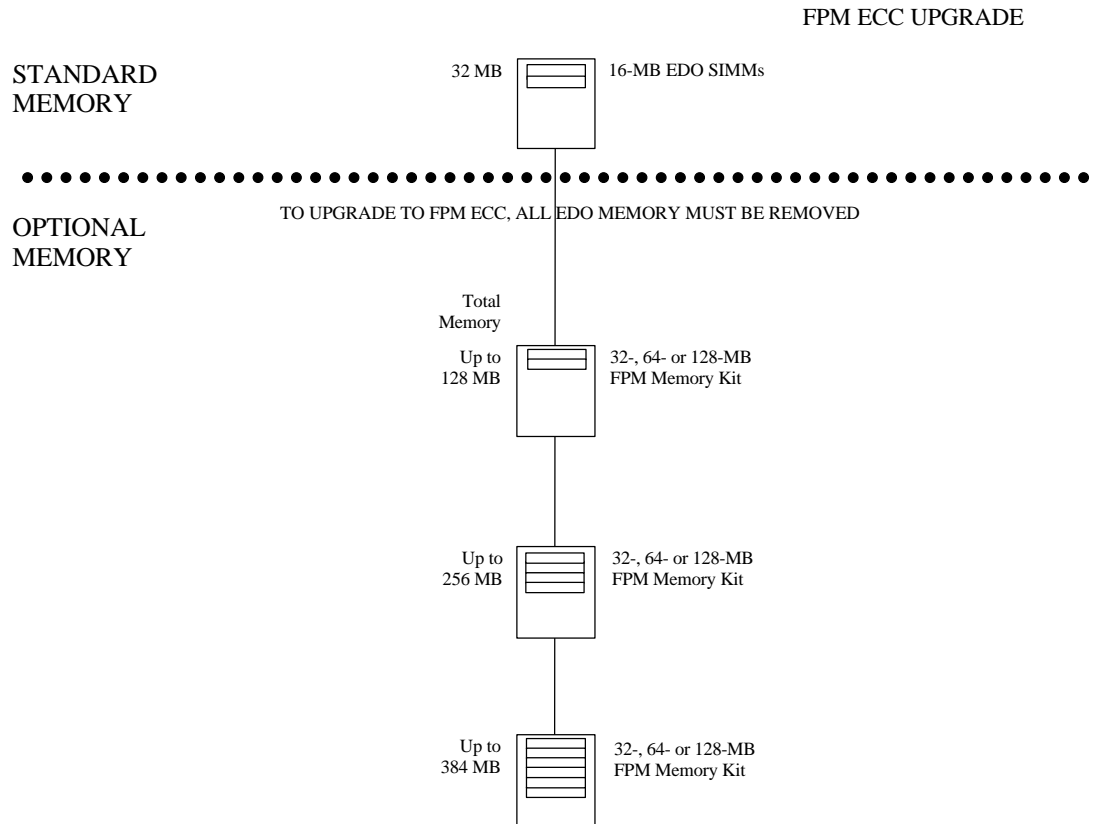

Notes:

Memory must be added in like pairs of memory modules (memory kits). For example, to add 32 MB of memory, two 16-MB Memory Modules must be added at the same time.

Following are the SIMMs memory options available from Compaq:

- 16-MB Memory Kit (2 x 8-MB EDO SIMMs, 60ns) 243012-002
- 32-MB Memory Kit (2 x 16-MB EDO SIMMs, 60ns) 243013-002
- 64-MB Memory Kit (2 x 32-MB EDO SIMMs, 60ns) 243014-002

ProSignia 200 6/233

Notes:

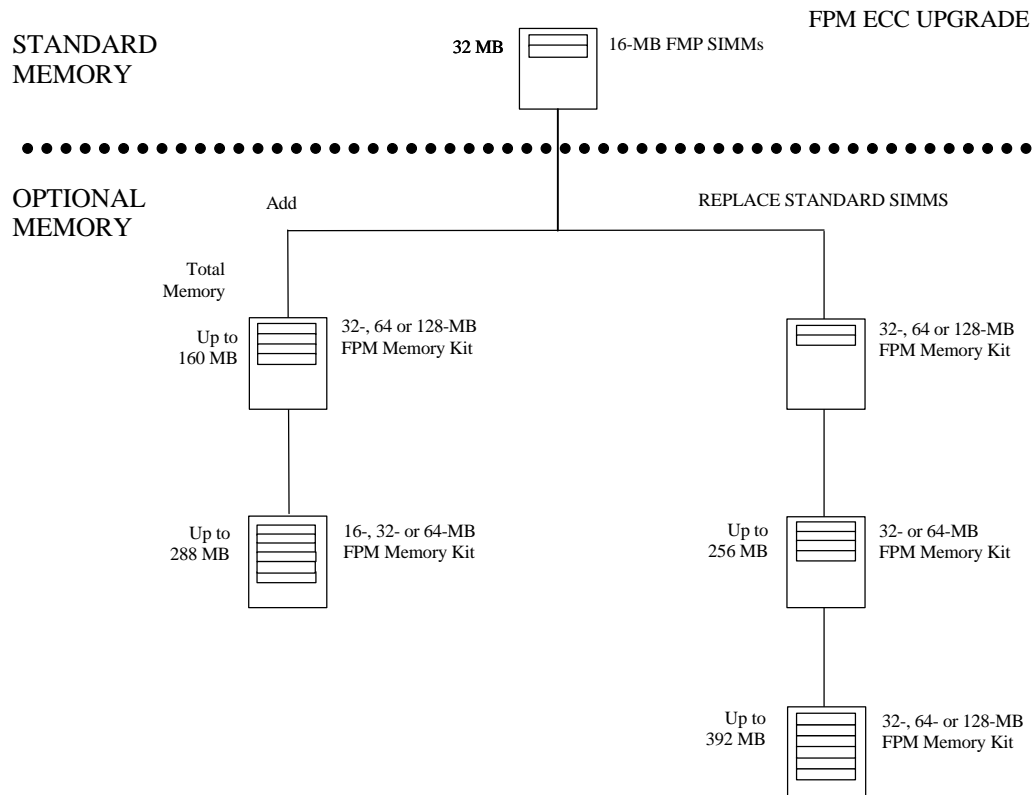

Memory must be added in like pairs of memory modules (memory kits). For example, to add 32 MB of memory, two 16-MB Memory Modules must be added at the same time.

Following are the SIMMs memory options available from Compaq:

- 32-MB ECC Memory Kit (2 x 16-MB FPM ECC SIMMs, 60ns) 186794-B21
- 64-MB ECC Memory Kit (2 x 32-MB FPM ECC SIMMs, 60ns) 186795-B21
- 128-MB ECC Memory Kit (2 x 64-MB FPM ECC SIMMs, 60ns) 296050-B21

Important: ECC SIMMs cannot be mixed with EDO SIMMs that come standard in the ProSignia 200 6/233. Use only tin lead plated Fast Page Mode (FPM) ECC SIMMs.

ProSignia 200 6/266 and 6/300

Notes:

Memory must be added in like pairs of memory modules (memory kits). For example, to add 32 MB of memory, two 16-MB Memory Modules must be added at the same time.

Following are the SIMMs memory options available from Compaq:

- 32-MB ECC Memory Kit (2 x 16-MB FPM ECC SIMMs, 60ns) 186794-B21
- 64-MB ECC Memory Kit (2 x 32-MB FPM ECC SIMMs, 60ns) 186795-B21
- 128-MB ECC Memory Kit (2 x 64-MB FPM ECC SIMMs, 60ns) 296050-B21

Important: ECC SIMMs cannot be mixed with EDO SIMMs that come standard in the ProSignia 200 6/233. Use only tin lead plated Fast Page Mode (FPM) ECC SIMMs.
