

## Ethernet Cards

# Ethernet Adapters for ISA Bus

### Plug and Play

Most PCs manufactured today support Plug-and-Play (PnP) ISA industry specifications. These adapters support PnP, so on PnP systems, the only thing to do is drop the adapter into an ISA slot. During bootup, the computer examines all installed hardware and assigns necessary, conflict-free resources for the adapter.

### Easy to Use

For older PCs that do not support PnP, these adapters provide an easy-to-use menu-driven program with on-line help that makes configuration setup an effortless task.

### Most Economic Choice

With very low prices, these adapters are the most economic choice for connecting desktops on a 10Mbps network.

### Features

- Plug-and-Play ISA specifications v.1.0a
- Support also non-PnP systems
- Auto-configure at bootup in PnP systems
- Jumperless design
- 16KB on-board buffer RAM
- Diagnostics program for error tracking
- Direct use of NE-2000 drivers

- 10BASE-T port supports UTP/STP
- Combo card auto-detects connected media
- Diagnostic LEDs for power, Tx, Rx/link, collision, jabber
- FCC Class B, CE Mark, VCCI Class B, C-Tick

### LAN Drivers

- Novell NetWare 3.x, 4.x server, ODI drivers
- Microsoft Windows 95, 98, Windows NT 3.x, 4.x
- Microsoft LAN Manager
- IBM LAN Server
- IBM PC LAN Support Program
- Sun PC-NFS
- WIN/TCP Pathway Access for DOS
- Banyan VINES
- DEC PathWork
- NDIS drivers
- Packet driver
- 3Com 3+Share, 3+Open
- Artisoft LANtastic

### Boot Servers

- Novell RPL Boot ROM code
- NetWare 3.x, 4.x RPL server
- Microsoft Windows NT 3.51, 4.x RPL server
- Microsoft LAN Manager remote boot server
- OS/2 LAN Server 3.x, 4.x
- IBM LAN Server 3.x, 4.x
- IBM Warp Server

Desktop Adapters

### Ordering Information

ISA-bus PnP Ethernet Adapters (DE-220P Series)	
DE-220PT	10BASE-T interface
DE-220PCT	Combo 10BASE-T/BNC interface
DE-220PCAT	Combo 10BASE-T/BNC/AUI interface
Boot ROM	
DE-224C	Boot ROM for DE-220P series adapters
