

## PCMCIA Cards

### Fax/Modem Ethernet PC Cards

Portable Adapters

#### Advanced Engineering & Compact Design

These cards are equipped with processors and memory to perform fax modem transmission, alleviating the host computer's CPU workload while freeing up its memory.

#### Fast Modem Speed & Battery Saving

These cards have built-in high-speed modems. The cards perform error correction and data compression, and consequently save the notebook's battery life while running cooler and working faster.

#### Fax/Modem PC Cards

- PCMCIA Type II Release 2.1, JEIDA 4.1, PC Card 95
- Up to 56Kbps data transmission/reception
- Digital line protection
- Internal DAA
- Send/receive faxes from computers or fax machines
- Low power consumption
- Sleep mode when idle
- Internal buffer memory provided, use no system memory
- AT command set
- V.42bis & MNP 2-5 data compression and error correction

DME-560CT

DME-560T

DM-560

- EIA/TIA 578 Class 1 compliant
- FCC Class B

#### Combo Fax/Modem Ethernet PC Cards

- All of the above, plus:
- Transfer data with network stations and sends/receives faxes concurrently in one step
- Connect to 10BASE-T and coaxial Ethernet

#### LAN Drivers

- ODI
- NDIS 2.x, 3.x
- Packet driver
- Run NE-2000 drivers

#### Operation Environments

- Novell NetWare 3.x, 4.x
- Microsoft Windows for Workgroups
- Microsoft Windows 3.1
- Microsoft LAN Manager
- Microsoft Windows 95, 98
- Microsoft Windows NT 3.5x

#### Connectors

- RJ-11 phone cable plug
- RJ-45 10BASE-T plug
- BNC 10BASE2 connector

#### Telecom Certification\*

- FCC Part 68

\* More may be forthcoming. Please check with the D-Link office of your area.
