WordPerfect 6.0 GUI for UNIX

Multi-Lingual

All languages are not available at this time but will be slipped into the product over the next few months. The languages that will ship are English-US, English-UK, English-Australia, Dutch, English-Canada, French-Canada, French-National, German, Italian, and Spanish. All languages will ship together on the same media but will not necessarily be on the same platform at the same time. You will need to call UNIX marketing to find out which languages are available on which platforms. The Character version to be called 5.2+ is currently not available but will ship in 1995. The GUI and Character will eventually ship together in the same package.

VLA Customer Requirements

The minimum purchase requirement for the initial order is $5,400 for Application products, and $155,000 SRP for Network Operating System (NOS) products. Minimum order requirements of $3,000 apply to all subsequent orders for application products and $10,000 for NOS orders. Both new and upgrade licenses are available under VLA. The customer's initial purchase under VLA sets the discount for a two year period. A unique VLA customer number will provide the discount level and the expiration date of the buying period.

VLA Discounts

Level	Purchases (Gross)	Purchases (Net)	Customer Discount
Application Product Purchases			
A	$5,400.00	$3,780.00	30%
B	$15,000.00	$10,350.00	31%
C	$36,000.00	$24,480.00	32%
D	$77,000.00	$51,590.00	33%
NetWare Purchases			
E	$155,000.00	$100,750.00	35%
F	$400,000.00	$252,000.00	37%

Levels A,B, C, and D are for application purposes. Levels E and F are for NetWare purchases.

How VLA works

Step 1 - CUSTOMER contacts local reseller for volume purchase of Novell products and completes VLA order form.

Step 2 - RESELLER places order for product with distributor of choice. Resellers must be Novell Authorized to sell Novell Network Operating Systems (NOS) products. Products under the VLA program are limited to Novell NetWare and Novell Application products as listed in the Novell Product Price List. All NOS Upgrade orders must have a complete Novell Upgrade Form and appropriate documentation accompanying the VLA Order Form. VLA application purchases must provide proof of ownership.

Step 3 - DISTRIBUTOR forwards order form and PO to Novell VLA Order Processing. The order form must be completely filled out or will be returned.

Please fax Order Form and Purchase Order to: (801)-228-9514

or send to:

Novell, Inc.
VLA Orders Processing
MS Q353
1555 N. Technology Way
Orem, UT 84057-2399

Distributors in Europe, Middle East, and Africa, please submit your VLA orders to your regular Novell Order Processing Department.

Step 4 - Once the order is received from the distributor partner, an order acknowledgement will be sent to the distributor. The order will be processed within five working days. For application orders only, Novell will create a specialized VLA license for the customer. The license certificate is customized to reflect each customer order, including the customer's name, unique VLA customer number and total number of special order licenses. Novell VLA NetWare Operating System orders will be assigned a unique serial number. NetWare serial numbers shipped on VLA orders will be registered with the VLA customer information obtained from the VLA order form. The VLA customer number for NetWare will be listed on the NetWare packing slip.

Returns Policy

All VLA order returns must be approved by VLA Order Processing prior to return. Novell will provide distributor with a Return Material Authorization (RMA). **All orders returned to Novell must be returned in their entirety. NO PARTIALS ACCEPTED.** Returns must reference the original purchase order. Defective material can be returned by contacting Novell Customer Service at 1-800-346-7177.

Novell, Inc. Upgrade Agreement

You and Novell, Inc. ("Novell") agree to the terms and conditions of this Upgrade Agreement (the "Agreement"). You are referred to in this Agreement by "You," "Your" or "End User." This Agreement is an integral part of the Novell Upgrade Registration Form. By submitting the form to Novell or a Novell authorized dealer or distributor, You are agreeing to the terms and conditions set forth below.

The Novell software you are seeking to acquire based upon the Novell Upgrade Registration Form are protected by the copyright laws of the United States and international copyright treaties. In addition, the possession and use of the software is subject to the terms and conditions of this Upgrade Agreement as well as those contained in the documents entitled "*Novell Upgrade License*" and "*Novell Software, General Terms and Conditions.*" Warranties, if any, relative to the software are explained in the document entitled "*Software Limited Warranty*" which accompanies the software.

1. Upgrade Purposes Only. The software is provided as an upgrade; the software is being acquired through the upgrade is referred to in this Agreement as the "Upgrade Product."

   a. You have acquired the right to use the Upgrade Product solely to replace a Novell product that you acquired legally (i.e., without infringing copyright) or a competitive product for which Novell is offering a upgrade, pursuant to the terms and conditions of the competitive upgrade program. The product from which you are upgrading is referred to below as the "Original Product."

   b. You are the original licensee of the Original Product.

   c. You have used the Original Product in accordance with the terms and conditions of the Novell license agreement under which Novell made the Original Product generally available.

   d. At the time you acquired the Original Product, you acquired a complete copy of the Original Product, including all disks and manuals, and not simply a serialized master or license disk.

   e. You have not acquired the Original Product in the secondary market, as scrap or through a second hand purchase from a dealer, distributor or another end user.

   f. You will archive, return or destroy the Original Product within thirty (30) days of the receipt of the Upgrade Product.

   g. You will not use, sell or otherwise transfer the Original Product upon receipt of the Upgrade Product.

   h. You acknowledge that within thirty (30) days of receipt of this Upgrade Product the license associated with the Original Product shall automatically terminate and become void.

   i. You agree to waive any defense you may have against copyright infringement based upon possession of the Original Product except for archive purposes.

2. Intellectual Property Right & Indemnification. Software. Software acquired under this Agreement is made available to You pursuant to the Upgrade Software License agreement accompanying the software. If you desire to receive a copy of the applicable license agreement prior to acceptance of the software, You may do so by contacting Novell or one of its authorized distributors or dealers.

3. Breach and Termination. While any breach of this Agreement by You continues after thirty (30) days written notice by Novell, Novell may terminate this Agreement by written notice, whereupon the licenses granted during the term hereof shall immediately cease.

4. Integration. All documents referenced by this Agreement are incorporated into this Agreement by reference. This Agreement shall not be supplemented or modified by any course of dealing or usage of trade. Variance from or addition to the terms and conditions of this Agreement in any purchase order or other written notification from You will be of no effect, unless otherwise expressly provided in this Agreement.

5. Assignment. This Agreement is not assignable or delegable by You, in whole or in part, without Novell's prior written consent. Notwithstanding, Novell shall not unreasonably withhold consent to an assignment and delegation of this Agreement or any part of this Agreement to a parent, subsidiary or affiliate. You acknowledge that Novell may assign any of its rights and may delegate any of its obligations hereunder.

6. Attorneys Fees. Each party agrees to pay the other's reasonable attorneys fees and costs of litigation if the original party, for any cause whatsoever, brings suit against the other party and the other party is finally adjudicated not to have liability.

7. Severability. If any provision of this Agreement is held invalid, illegal, or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

NetWare Operating System Upgrades

Updates and changes to the NetWare Upgrade program are published monthly in the *Novell Bulletin*. Please direct inquiries to your local Novell sales representative or local Novell sales office.

General Upgrade Rules

- With the exception of Novell peer-to-peer networking products such as Personal NetWare and NetWare Lite, customers upgrading to a newer version, a higher user count, or from a non-NetWare product relinquish the right to use, sell or transfer their existing license(s).
- Novell and non-Novell products may not be upgraded more than once.
- Novell and non-Novell products may only be upgraded by the owner of the license. Individuals or resellers may not upgrade licenses they do not own.
- A NetWare product purchased as an upgrade may not be sold or represented as new product.
- Novell products may only be registered to the licensed owner. Register your product to protect your investment.
- Exceptions to the published NetWare Upgrade Program must receive written permission from Novell Corporate Office. Please contact your Novell account manager or sales office, who will then contact the corporate office.
- Novell requires the Upgrade Registration Form to be completely filled out, signed and submitted with each upgrade. The serial number of the product(s) being upgraded and the new product(s) must be recorded on the form (where applicable).

General Channel Rules

Reseller Instructions

- Only Novell authorized channel partners (i.e. resellers, OEMs, etc.) are permitted to sell NetWare upgrades.
- Resellers must complete the Upgrade Registration Form and include the Reseller Authorization Number prior to sending a completed copy to the distributor, along with the appropriate proof-of-ownership requirements.
- A NetWare product purchased as an upgrade may not be sold or represented as a new product.

Distributor Instructions

- Distributors/NROs must inventory NetWare upgrade products and Upgrade Registration Forms and provide these forms to Novell Authorized Resellers free of charge. The Upgrade Registration Form must be used to process all NetWare upgrade purchases. Each distributor is responsible for verifying the accuracy of the information contained on the Upgrade Registration Form. Distributors may use their own Upgrade Registration Form, provided that the information on the form is the same as the Novell Upgrade Registration Form.
- Distributors are responsible for ensuring that upgrade serial numbers are accurate and recorded on the Upgrade Registration Form.
- Distributors are responsible for returning a copy of the NetWare Upgrade Registration Form to Novell Upgrade Administration at intervals specified by the Novell account manager, but not less than once per month. Upgrade Registration Forms are to be sent to:

  Novell, Inc., Upgrade Administration, MS Q353, 1555 North Technology Way, Orem, UT 84057-2399
- The number of NetWare upgrades shipped to distributors/NROs should equal the number of NetWare upgrades in inventory, with completed Upgrade Registration Forms. Future shipments of upgrade products are dependent upon an up-to-date audit process and timely resolution of any discrepancies. Discrepancies will be charged back to the distributor/NRO at the new product system price, less distributor/NRO discount.

NetWare Operating System Upgrades, continued

NetWare-to-NetWare Upgrades

- All NetWare products are upgraded according to the connections supported by the server with the following exceptions:

Product	Base Upgrade Level
ELS Level I	5-License Level
ELS Level II	10-License Level
Advanced NetWare 2.15 and earlier	50-License Level
NetWare SFT 2.15 and earlier	100-License Level
NetWare 3.11, 20-user	25-License Level
NetWare 386 3.0 and 3.1	100-License Level

- Upgrades from one language to another are permissible. The only exceptions are non-E.F.I.G.S. versions.
- NetWare-to-NetWare upgrades require a valid serial number. Customers must provide one of the following as proof of ownership with the completed Upgrade Registration Form:
    - The serialized electronic media (It is recommended that NetWare 4 customers do not return the actual key diskette, as further upgrades will require the serialized media)
    - A photocopy of the serialized media
    - A print screen of file server information
- The serial number must be clearly readable or it will not be accepted.

Peer-to-Peer Upgrades

- Peer-to-peer upgrades to NetWare are available for both Novell and non-Novell peer-to-peer products. The peer-to-peer nodes upgraded do not have to be homogenous, but can be a combination of qualifying peer-to-peer products.
- Peer-to-peer customers upgrading to NetWare must complete and sign the Upgrade Registration Form and meet the appropriate proof of ownership requirements.
- Two peer-to-peer nodes are equal to one license for the purposes of upgrading. The only exception is the five- to nine-user level "Special Promotional Offer." The following graph outlines upgrade options based on peer-to-peer nodes:

Peer-to-Peer Nodes	Client-Server License Level	Upgrade Options
5-9 5	NetWare 3 or NetWare 4, 5-User	
10-19	5	NetWare 3 or NetWare 4, 5, 10, 25-User
20-49	10	NetWare 3 or NetWare 4, 10, 25, 50-User
50-99	25	NetWare 3 or NetWare 4, 25, 50, 100-User
100-199	50	NetWare 3 or NetWare 4, 50, 100, 250-User
200+	100	NetWare 3 or NetWare 4, 100, 250, 500-User

Novell Peer-to-Peer Upgrades

- Novell peer-to-peer customers do not need to surrender their license, but must provide one of the following items as proof of ownership:
    - The electronic media (CD, diskettes, tape, etc.).
    - Photocopy of the media showing the serial number (if applicable).
    - The copyright page or manual cover. Remove the copyright page or the cover from the manuals and attach these to the Upgrade Registration Form. No photocopies will be accepted.

NetWare Operating System Upgrades, continued

- When upgrading from one of the Novell peer-to-peer products listed below, a signature on the Upgrade Registration Form is not required:

Manufacturer	Product
Novell	NetWare Lite
Novell	Personal NetWare
Novell	DOS 7 with Personal NetWare

Non-Novell Peer-to-Peer Upgrades

- Non-Novell peer-to-peer customers upgrading to NetWare products must provide the following proof-of-ownership:
  - The purchaser must surrender complete electronic media (CD, diskettes, tape, etc.) to the reseller at the time of purchase.
  - Manuals and other printed documentation do not qualify as proof-of-ownership.
  - The customer must sign the Upgrade Registration Form agreeing to relinquish the right to use, sell or transfer the existing license.

The following non-Novell peer-to-peer products qualify for upgrades:

Manufacturer	Product
Artisoft	LANtastic
DacEasy	MainLan
Invisible Software	Invisible LAN
LANSmart	LANSmart
Microsoft	MS Windows for Workgroups
Moses	Chosen LAN
PC/NOS Plus	PC/NOS Plus
Performance Technology	POWERLan
SwiftLink	SwiftLink
Tiara Computer Systems	10Net

NetWare License Consolidation Upgrades

- Consolidation upgrades are only permitted for combinations of Novell NetWare 2, NetWare 3 and NetWare 4 products. Non-NetWare and peer-to-peer products do not qualify for consolidation upgrades.

- Consolidation upgrades are always from multiple servers to one server. They are not multiple servers to multiple servers.

- Consolidation upgrades must meet minimum license requirements to qualify for that license level.

- Licenses above the minimum license requirement for a particular license level are forfeited as part of the consolidation upgrade and may not be upgraded or re-deployed.

- Proof-of-ownership requirements are the same as standard NetWare upgrades.

- NetWare license consolidation upgrades use the same Upgrade Registration Form. Customers must complete and sign the Upgrade Registration Form and meet the appropriate proof-of-ownership requirements.

Non-NetWare Upgrades

- Novell allows a single NetWare upgrade for a given non-NetWare product--one-to-one upgrade ratio.

- Non-NetWare product user levels are equal to the manufacturer's specified user level for its product or the actual number of current users supported, with a maximum trade-in value of 100 licenses.

NetWare Operating System Upgrades, continued

- Non-NetWare upgrades require the purchaser to surrender the complete electronic media (Cds, diskettes, tape and so on) set at the time of purchase to the reseller. The reseller is then required to send the Upgrade Registration Form and the complete set of media to the distributor.

- Non-NetWare upgrades use the same Upgrade Registration Form. Customers must complete and sign the Upgrade Registration Form and meet the appropriate proof-of-ownership requirements.

  The following non-Novell products qualify for upgrades:

Manufacturer	Product
3COM	3+Open & 3+Share
AT&T	StarLAN
Banyan	VINES
Digital	PathWorks
IBM	LAN Server
Microsoft	LAN Manager
Microsoft	NT Advanced Server

Like-to-Like Upgrades

- Like-to-like upgrades are available to customers who have the current version of a product registered at the time a new version in their product family is announced.

- These are limited-time offers and Novell reserves the right to terminate like-to-like upgrade offers after a six-month period.

Reduction of User Licenses

- Since an upgrade/downgrade from a higher-user license to a lower-user license is not specifically offered, customers need to use the lower-license level to upgrade to the product desired.

- No credits will be given for the reduction of user level.

- Proof-of-ownership requirements are the same as NetWare upgrades.

Downgrading from a Higher Version to a Lower Version

- Downgrading from a higher NetWare version to a lower NetWare version is not allowed under the consolidated upgrade program.

* Can be any single product or combination of Novell/competitive products from the list on the next page.

Trade-in allowances are provided so that any licenses may be combined in any combination to obtain an upgrade. For example, a customer could trade in ten single licenses to obtain a 10-User LAN WorkPlace license.

The LAN WorkPlace upgrades are available through any authorized Novell reseller or international equivalent. The customer should contact the reseller to obtain a Novell Upgrade Registration Form (112-001224-002). The upgrade form, along with proof of purchase of the original LAN WorkPlace media, a photocopy of the program diskette and the upgrade fee, must be submitted to the reseller.

The Novell reseller must forward a copy of the paperwork along with the upgrade form to the distributor. The Novell distributor will fulfill the order and forward the upgrade form and the photocopy of the old software to Novell's upgrade administration department.

Conversion of Non-Novell TCP/IP Products to LAN WorkPlace - Notes

Customers may upgrade to LAN WorkPlace from any previous version of LAN WorkPlace or competitive product.

Trade-in allowances are provided so that any licenses may be combined in any combination to obtain an upgrade/conversion. For example, a customer could trade in ten single licenses to obtain a 10-User LAN WorkPlace license.

The LAN WorkPlace upgrades/conversion are available through any authorized Novell reseller or international equivalent. The customer should contact the reseller to obtain a Novell Upgrade Registration Form (112-001224-002). The upgrade form, along with proof of purchase of the original LAN WorkPlace or competitive media, a photocopy of the LAN WorkPlace program diskette (or if a conversion, the actual program diskette) and the upgrade fee, must be submitted to the reseller.

The Novell reseller must forward a copy of the paperwork along with the upgrade form to the distributor. The Novell distributor will fulfill the order and forward the upgrade form and the photocopy of the old software to Novell's upgrade administration department.

Conversion of Non-Novell TCP/IP Products to LAN WorkGroup - Notes

Customers may upgrade to LAN WorkGroup from any previous version of LAN WorkPlace or competitive product.

Trade-in allowances are provided so that any licenses may be combined in any combination to obtain an upgrade/conversion. For example, a customer could trade in two 20-user licenses and ten single licenses to obtain a 50-User LAN WorkGroup license (or five 10-packs of LAN WorkGroup) and they may trade in one platform for another (i.e., a 10-pack of DOS for a 10-pack of Macintosh). A customer may also trade a 100-pack of LAN WorkPlace for two 50-User LAN WorkGroup licenses.

The LAN WorkGroup upgrades/conversion will be available through any authorized Novell reseller or international equivalent beginning in September 1992. The customer should contact the reseller to obtain a Novell Upgrade Registration Form (112-001224-002). The upgrade form, along with proof of purchase of the original LAN WorkPlace or competitive media, a photocopy of the program diskette and the upgrade fee, must be submitted to the reseller.

The Novell reseller must forward a copy of the paperwork along with the upgrade form to the distributor. The Novell distributor will fulfill the order and forward the upgrade form and the photocopy of the old software to Novell's upgrade administration department.
